

TRAC Environmental Policy

At TRAC we are conscious of the inevitable impact our activities have on the environment. We are committed to minimising this impact through carrying out the steps outlined in this policy which we will continually review and improve.

We aim to meet and where possible exceed all government regulations, laws and codes of practice regarding environmental matters.

We commit to:

- Minimise our use of resources by:
 - promoting energy saving measures throughout the company
 - using a 100% renewable energy supplier
 - using local suppliers for all of our purchasing requirements where possible
 - using recycled stationary
 - harvesting our rainwater
- Minimise waste through:
 - promoting paper saving techniques to reduce usage by 10%
 - ensuring all waste paper and cardboard is recycled
- Consider Environmental factors such as packaging waste and sustainability when purchasing office equipment/supplies.

This policy statement is on display in the company premises, on the company intranet and is available to the public via our website.
